Realizar altas, bajas y modificaciones con Visual Basic .NET y SQL SERVER 2005

Posted by jocuague under SQL SERVER 2005 | Etiquetas: SQL SERVER 2005, VISUAL BASIC |
[62] Comments

Atendiendo a todos los usuarios de Visual Basic, vamos a realizar el uso de Procedimientos Almacenados en SQL Server 2005y Visual Basic. El primer paso , es diseñar nuestro formulario.

Hay que considerar que este ejemplo es similar al que hice con Visual C#. Los elementos a utilizar son:

SQLConnection

SQL Command

Stored Procedured SQL SERVER 2005

Si ya tenemos el formulario, ahora hay que agregarle el código. Empezaremos por agregarle en el encabezado antes de Public Class Form1 esto:

Imports System.Data.SqlClient

Este es mi formulario de ejemplo, es una pantalla para dar de alta a los clientes, en ella solo voy a estar afectando a los campos clave, nombre, direccion y negocio. Hay que agregrar una nueva conexion a una base de datos declaramos esto agregandole la cadena de conexión.

```
Dim cnn As SqlConnection
Dim cmd As SqlCommand
Dim dr As DataRow
Dim conexion As String = "DataSource=.;Initial Catalog=dbDemo;Integrated Security=true"
```

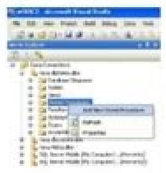
Colores la linea de la conexion porque es importante recordar lo siguiente:

DataSource: Se debe indicar el nombre del servidor, si se tiene SQLSERVER Express, seria necesario darselo, si se cuenta con una versión superior, podemos utilizar unicamente el . (punto)

Initial Catalog: Debemos colocar el nombre de la base de datos a utilizar.

Botón Altas:

Primero hay que crear el procedimiento almacenado, en la venta de Server Explorer , hay que escoger la Base de Datos, y de ahi la carpeta de Stored Procedure, damos un clic con el boton derecho y escogemos Add New Stored Procedure



8-arrays.htm; updated October 22, 2010

Arrays and Collections

Coverage:

This chapter teaches you to use arrays and structures to process data through the use of various loop and table lookup procedures. Single and multi-dimensional arrays are covered. **For Each..Next** loops are used to process arrays. ListBox controls are also used to process arrays.

Outline:

Introduction
- Chapter 8 In-Class Project

Single-Dimension Arrays
- Declaring an Array
- Array Subscript Errors

For Each…Next Loops

Structures

Table Lookup

Version 1 of the Bookstore Application
- Create or Copy Project
- Load Event
- Search Button Click Event
- Purchasing a Product
- Resetting the Form
- Product – Search Menu Item
- Help – About Menu
- Exit the Form

Version 2 of the Bookstore Application
- Using ComboBoxes with Arrays
- Start New Project
- Redesign Interface
- Coding the Project

Using Array Elements for Accumulators
- In-Class Exercise

Multidimensional Arrays
- A Two-Dimensional String Table
- Lookup Search for Two-Dimensional Tables

Schlumberger

He developed a Windows application for a customer who probably requires a month for development. A user can use copies of the software to develop and test their applications. The duration of the trial period is thirty (30) days. What a load of shit that was. But it was the best at the moment. So things are related. In reality, we made the architecture of the DNA months before the MS released it. We use ASP and DNA for the first Saas application that we have to know the health space. We were the first pioneers, which was fantastic. And at the time we liked Asp. Looking back ... yes, it's free. The VS2012 editions issued for Microsoft .NET programmers are: Visual Studio 2012 Ultimate Edition, Visual Studio 2012 Premium Edition, Visual Studio 2012 Professional Edition, Visual Studio 2012 Test Professional Edition and Visual Studio 2012 Team Foundation Server Edition. Our use cases are very similar, I am aware of the differences between the two versions and ok, I just wanted to check if the partner Microsoft was making me bullshit. Scott Alan Miller wrote: Express is really free. It is also substantially useless :) I would stop and ask myself because you want to use it, because there is almost no case in which your activity is not the great loser with Visualstudio. It is free because it is essentially useful only for learning and the creation of products that block you in very high costs costs along the way. Development studies are free for each large platform. Don't jump in vs because you can get a free version. It is likely that, 99% of the time, you should run away from it. I think you could mix Visual Studio Community Edition and Visual Studio Express Edition, the first limits you to use only for 5 users, the latter does not have such restrictions. I'm not almost a MS license expert, but I think if you fall into that area ut ut arolla ,itnetu/CP 052 id onem e mm 1 $ a iroirefni etartne noc ♪ ♪ SV otni pmuj t'noD Â.mroftalp rojam yreve rof eerf era soiduts tnempoleveD ? sselhtrow yllacisab osla s'tI .eerf yllaer si sserpxE .snoitacilppa ruoy etaerc ot noitidE ytinummoC esuLoohcs dlo gniod fi â â ã,).Yllacab ten. #F Esu d'uoy nehw(alacs s'ti Snoitilacs Gniilacs Gniod fi â â ã â ã ã, â â â ã,.esac esu ruoy if gnidneped srotatepmoc fo wels to tsniaga setepmoc ylnam ten. ,adod ,yot â â ,. Development studies are free of charge for each majorNot only jump to VS because you can get a free version. It is likely that, 99% of the time, you should run away from it. I think you're limited to very small teams for organization. Visit Microsoft Downloads Portal. Visual Studio Test Professional 2012 If you want to try Visual Studio Test Tools by RTM Release Visual Studio 2012, software developers can download Visual Studio 2012 Test Professional Edition. This question is based on opinion. Horusporcus wrote: Wow, it's pretty impressive, honestly, they only worked on Java and PHP and ASP mainly in my 17 years of development experience. I see that it is easy to extend with the Paied version in case the project will be extended 2 weeks ago we have published a rather complete list of build numbers of Allosaft Visual Studio, Version ID and predefined routes from VS6 to VS2017. I think they are. The license is basically saying that you can't install it on something like Terminal Server or RDS and that more developers use the same machine and the same installation as Visual Studio. The development teams who want to try out the new version of Team Foundation Server can download this 90-day free trial software using Web Insaller. IT professionals can get more detailed information like system requirements in this official download URL. Backup copy. You can also download the image file directly. ISEP VS2012_PREM_ENU.ISO following this download link. Thumb_up Thumb_down Microsoft IDE The free good of Microsoft is the VisualStudio code. Totally free and unlimited. It does not share the common VS code base. If you want to add a new direct download link or make us aware of a broken one, write it on a comment and we will act accordingly by adding or deleting the respective URL. YesNote that just like the Ultimate Edition Visual Studio 2012 configuration file is about 1.5 GB in size. Since our company does not want to invest much for this project, I can use the trial version ofProfessional studio 2012? update the question so that it can be answered with facts and quotes by changing this post. wow, which is quite impressive, honestly, they worked on only java and php and asp mostly in my 17 years of development experience. I ask you this seriously, what you think is a reasonable substitute for .net, keep in mind, are in the business of developing Web-based applications and console applications. I tried to develop with java, but for the kind of things I'm trying to do, it turned out to be rather slow. will cover all the features and will be ok for distribution? the differences between communities and pros are very few. we have taken the approach to installing the free, and if we find something we cannot do, then buy pro. oo demo. only a small note for programmers who want to download, .iso image file VS2012_ULT_enu.iso for visual study completed 2012 edition is about 1.5 gb in size. spice (1) flagreport was this useful post? so far on 6 developers only 2 need pro, and those 2 are our main web developers. I looked here at the 2017 license and how I understand this is: individuals can use the community edition to develop and test only any application "(to sell or for any other purpose)" companies can use the community edition for open source initiative, educational or vs extensions. If your company is less than 250 pcs or users, or less than a million dollars of annual revenue, then up to 5 developers can use the community edition to develop and test. visual studio 2015 visual studio 2013 visual studio 2015 community edition with the update 4 visual studio 2012 visual studio 2010 visual studio 2010 sp1 - offline installer (iso) visual studio 2008 visual studio 2005 visual studio 2102 2102 otsoga'llen ilanoisseforp erawtfos id irotappulivs id osu'l rep e otacrem li rep)dliub lanif(MTR 2102 oidutS lausiV otaicsalir ah tfosorciM 6 oidutS lausiV 3002 The release of Visual Studio 2012 RC (release candidate) at the end of May 2012. Horusporcus wrote: Marc92 wrote: does this mean that a company with more of a user cannot install it? We were an ASP show on the pre-ASP.NET days. Spice (1) Flagureport was useful this post? Installation and use rights. For those who continue to ask where they can download the ISO files of the most old builds, we have put together this complex list containing some of the most well -known official download connections for offline installers and/or ISO files, together with the package and file service service support. Horusporcus wrote: I ask you seriously, what you think is a reasonable replacement for .NET, keep in mind, they are in the sector of the development of web -based applications and console apps. You can download the card by clicking the button above. Thumb_up Thumb_down OK, so in practice some of these websites and apps are managed by some of the customers themselves, they only want that we develop something based on the specifications they need, once delivered, their team takes over and manages the costs Operating, they wanted Windows and not Unix because apparently some problems with the right type of people (apparently UNIX Devs are more difficult to hire compared to Windows administrators in Holland) or something like that. Oh, well, then you are not in the driving place for choosing technology. Who cares then, .net is the customer is the ridiculous one. I just took a shop that was making it, throwing the requirements on the wall requirements (great design in front / waterfall) and waiting for the .NET apps behind. I stopped at this before I even start on board. What a mess. It is as if customers were not yet aware of the last thirty years of software development. Scott Alan Miller wrote: and not it slightly.
