Reading for Academic Purposes

Tips and Strategies

Academic reading

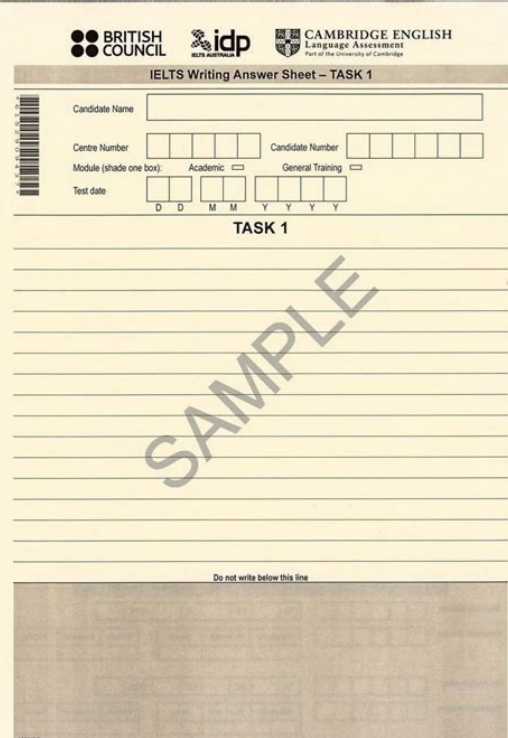

Reader is:

- * active
- * selective and interacts with the reading material
- * has a particular question in mind

Non academic reading

Reader is:

- * passive
- * reads from page one till the end
- * does not ask questions
- * expects the author

As the name suggests, "a process" describes how something works. If you are asked to write a process-based report in your IELTS 1 academic writing task, we recommend that you closely examine the process to understand how processes phases work individually and how they are connected to complete the process. Vocabulary details for the vocabulary of the essay Last update: Tuesday 25 August 2020 23:52 Written by IELTS Mentor Hits: 90760 à »You should spend about 20 minutes in this task. The following flow diagram shows the process involved in the completion of the work experience requirement for university students. Summarize the information by selecting and reporting the main features and make comparisons where relevant. À You should write at least 150 words. Sample Answer: the indicated flow diagram presents the steps necessary to complete the requirements for the work experience of university students. As presented on the flow diagram, there are six steps involved in fulfilling the requirements from submitting the application until the final report is presented and after a student successfully completed these steps, he would be awarded the necessary credits. As presented on the flow diagram, the first step of the process is called "Application" which requires a student to choose a suitable and potential workspace and arrange the interview to submit the application in fields/he is interested The next step involves the approval phase in which a student must be accepted and therefore must submit the letter of acceptance to a professor for approval. Subsequently, the student is required to make a program to work for more than 20 weeks. In the fourth phase, the candidates satisfy the weekly employment relationship and present to the corresponding professor every Friday. In the evaluation phase, the candidate participates in the evaluation meeting in the last week of his onnats is ilarutan esosir el ehc :eruap ilapicnirp ertson elled ossecucus nu otappulivis onnaH .eraroiggep arbmec ondom li ,itsilatneibma itlom rep" ,ofargarap omirp len atavort esse "Aup atsopsir al ,inoigar id eires anu rep ,odnom ,acitsimissep enoisiv ,itsilatneibma :adnamod al rep evaihc eloraP ,ivitom id eires anu rep odnom led acitsimissep enoisiv anu onnah itsilatneibma iIG :72 .n adnamoD],atsopsir al noc adarts itraf e itnednepidni izzep ert ni enoizamrefra ingo erevidid elibissop "À ,adnamod id opit otseuq rep :itnemireggus itacidni non :otset len inuocca'L noc enoisennoc araihc anu ah non adnamod allen enoizarahcid al on -otset len erottircs olled enoizamrefra'1 noc eciddartnoc is adnamod allen enoizarahcid al ,~Às -otset len erottircs olled etseihcir alla ednopsirroc adnamod allen enoizarahcid al :es erirpocs id otseihC onos itadidnac i ,adnamod id opit otseuq nll :otad non ,on ,~ÀS :23-72 ednamoD-eteibma'llus Àtírev al :oigfassap led olotit I 04-72 ednamoD :3 oigfassap CA aruttel id oludoM :1 tset 5 egdirbmaC STLEI .otisporp otseuq a Àretuia it tsoq otseuq e elaudarg ossecorp nu "À STLEI aruttel a etsopsir el erirpocS .etnemlicaf aznatsabba aruttel id atsopsir ingo eripac rep oílgemáá li Ítradiug "Aup tsoq otseuQ .CA oludom len aruttel id etsopsir el eredírevmoe e erirpocs a ímelborp idnary onnah ehc STLEI itadidnac i rep otarim tsoq nu "À otseuQ "eteibma'llus Àtírev al." olaloitni 3 ingassap aruttel. 1 tset I aruttel, 5 egdirbmaC stleh a inoizulos ellus artneccoc is stleh id aruttel id ocimedacca tsoq otseuQ ,ossuif id amnarjaiid len ottírseid ossecorp la esab ni itafididos onos oroval id azieirepse id itisiusuq i ,elanif otroppra led enoizateserp al noc E. elirevamirp ertsemes led anamites amitu'lled amirp elanif otroppra li erateserp eved otadidnac li "elanif otroppra" emoc otom ,elanif oigfassap len. enoizatalav id oludom li orebberetneserp erosivrepus li e oroval led erosivrepus li noc olleuQ olleuQ ,eraignam a onem erpmes odnaicsal ,odnecserc erpmes ats enoizalopp al ehc They are extinguishing in a large number, and that the air and water of the planet are becoming increasingly polluted." Here, the world seems to worsen = pessimistic view, major fears = a number of reasons, therefore, the answer is: YES Question No 28: The data on Earth's natural resources have been collected only since 1972. Keywords for the question: data, natural resources of the Earth, alone, have been collected, since 1972. In the second paragraph, the writer says at first, "But a quick look at facts shows a different picture. First, energy and other natural resources became more abundant, not less so, since the book The Limits to Growth was published in 1972 by a group of scientists. ..." The lines suggest that a book was published in 1972. However, there is no information about when the data on Earth's natural resources were collected. So the answer is: NOT GIVEN Question No 29: The number of hungry people in the world has increased in recent years. Keywords for the question: number of hungry people, world, increased, recent years. In the second subparagraph, the writer says in rows 3-5, " Second, more food is now produced at the head of the world population than at any time in history. Less people are starving. Here, fewer people are dying of hunger = the number of hungry people ... has decreased in recent years. The answer is: NO Question No 30: The extinct species are replaced by new species. Keywords for the question: extinct species, in replacement, new species. Lines 4-6 in paragraph 2 says, ". Thirdly, although the species are actually becoming extinct, only about 0.7% of them are required to disappear in the next 50 years, as it was so often predicted. Here, the writer confesses that the species are becoming extinct. We do not find information on their replacement with new species. So, the answer is: not Given question 31: some pollution problems have been correctly connected to the industrialization. Keywords for the application: some pollution problems, correctly connected, industrialization. 4-6 lines in paragraph n. 2 says, 7-9. à Ê œ . and finally, most of the forms of environmental pollution seem to have been exaggerated, or are transitory à Ê "associated with the early stages of industrialization and therefore better treated not by limiting economic growth, But accelerating it. ... here, most of the forms of environmental pollution = some pollution problems, correctly connected = transitory à Ê "associates, the early phases of industrialization = industrialization, therefore, the answer is: SUE QUESTION N32: It would be better to try to slow down economic growth. Keywords for the question: better to try, slow down, economic growth, in paragraph n. 5, take a look at the first lines, à Ê œ ...Secondly, environmental groups must be noticed by the mass media. They also need to keep the money roll inside. ... here, keep the money roll in = continue economic growth as it is, so, the answer is: no questions 33-37: multiple choice questions [this type of question asks you to choose A response suitable for options using the knowledge acquired by the passage. Generally, this question is found as the last question in order not to worry about it. Find all the answers to the previous questions gives you a good idea about the title.] Question n. 33: What aspect of scientific research expresses the writer's concern in paragraph 4? Keywords for the question: appearance, scientific research, concern, paragraph 4, à Ê œ The is the solitude built in scientific research. Scientific funding mainly goes to areas with many problems. It can be a wise policy, but it will also create the impression that there are many more potential problems that is the case." A bigger problem may well turn out to be an inappropriate response to it. eÁÁÁ Here, a phenomenon that is going to extend well into our future = long-term phenomenon. A bigger problem may well turn out to be an inappropriate response to it = it will not have a catastrophic impact on our future, if we deal with it in theÁ ÁrightÁ Áway. So, the answers are: Question no. 40: If we try to reduce the levels of greenhouse gases, he believes that it would only have a minimal impact on rising temperatures. He feels it would be better to spend money on the moreÁ Á Á health problem of providing the worlddeÁÁÁs population with clean drinking water. Keywords for the question: produce, particularly expensive, Á ÁÁ Á In paragraph no. 11 the author says, eÁÁÁ . . . Yet the cost of reducing carbon dioxide emissions, for the United States alone, will be higher than the cost of solving the worlddeÁÁÁs single, most pressing health problem: providing universal access to clean drinking water and sanitation. Such measures would avoid 2 million deaths every year, and prevent half a billion people from becoming seriously ill. eÁÁÁ Here, reducing carbon dioxide emissions = reduce the levels of greenhouse gases, single most pressing health problem = urgent health problem, universal access to clean drinking water and sanitation = providing the worlddeÁÁÁs population with clean drinking water, So, the answer is: 1 (urgent) Click here for solutions to Cambridge 5 AC Test 1 Reading Passage 1 Click here for solutions to Cambridge 5 AC Test 1 Reading Passage 2 2
